BARLINEK.COM

Wood protection system 7 layers of UV-hardened acrylic lacquer or a system of natural oil.

# **CROSSLOCK** joint

Crosslock is the latest joint designed by Barlinek, which facilitates the arranging of the Herringbone Pattern in a clean, quick and easy manner. Its pro le allows the installing of the above-mentioned pattern without the need for both the right and left side oorboards at the same time.\*

The advantages

of the Crosslock joint

not require using both

 No risk of damaging the joint during assembly

right and left oorboards

A clean, quick and easy assembly without using special tools

An arrangement system which does

\*Detailed information regarding the installation and use of the Herringbone Pattern can be found in the assembly instructions and the guarantee certic cate.

### Bottom layer

Coniferous wood arranged laterally to the middle layer reduces the natural work of wood.

Coniferous layer arranged laterally to the surface and a bottom layer. Such construction limits the natural movement of the wood and prevents gaps, cracks and squeaking - even in constantly changing weather conditions.

Middle layer 🎖

#### Surface layer

Selected European wood of the appropriate thickness, protected with a lacquer or oil nish.

## Oak Toffee Herringbone Piccolo

Single plank oak oor immersed in shades of gold and warm brown. The slenderness of the boards coated with natural oil was achieved by 4-sided bevelling. The uniqueness and abundance of the wood was emphasized in the brushing process.
